2018 - present: member, EMLA - Environmental Management and Law Association

2018 - present: member of public body, Hungarian Academy of Sciences (VIII. Section of Biological Sciences, Scientific Committee on Diversity Biology)

2017 - present: member, Hungarian Soil Science Society (Section of Soil Biology and Soil Ecology; Section of Soil Protection)

2015 - present: member, Hungarian Biological Society (Section of Nature Conservation and Ecology)

PROJECTS

Research interests and projects

The role of ecosystem services / biodiversity in decision making

Environmental interests in EU policies EU soil policy

Ecology and diversity of soil invertebrates and microbes

Effects of urbanization, intensive agriculture and climate change on soil organisms

Plant invasion-soil biota interactions

Effects of abiotic and biotic factors on organic matter decomposition in soil

Participation in the following projects:

GINOP-2.3.2. Hungarian TALAJBIOM Project: 2020-

EFOP-3.6.2. Development of a product chain model for functional, healthy and safe foods from farm to fork based on a thematic research network: 2017-2020

ExDRain (Extreme Drought and Rain Manipulation Experiment): 2014-2016

GLUSEEN (Global Urban Soil Ecology and Education Network): 2013-2015

LIBERATION (LInking farmland Biodiversity to Ecosystem seRvices for effective ecological intensificATIOn): 2013-2014
